January 28, 1963

Dear Dr. Jim:

Enclosed is your check and some magazines. Am not particularly happy with the way your article is set out in this issue, but have remedied the situation in the February issue. By the way the article you sent for the February issue, I think is by far the best one yet. There is no doubt when reading it what you are trying to put across.

Carl is going along in about the same state of what ever it is and we are getting along fine. The business of the office and magazine continues to prosper so we have nothing to complain about except the weather and it has been foul. Cold, snowy, icy and all the things that go with winter. Have another six weeks or two months and spring will have sprung and then we will gripe about the weeds in the yard.

I just want to state that I have a great deal of admiration for you and the persons working with you on the Meredith thing. I do ~~so~~ hope he will come back and others will come also. The impact of it ~~is~~ certainly wide spread and I think you should be commended.

There is always an empty teepee ^{place} around if you all need it.

Sincerely,

Louise
